Subject: Confirmation of mandate for the production of the Environmental Product Declaration (EPD), Health Product Declaration (HPD) and Environmental Data Sheets (EDS) for the Steel Frame and Steel Door with Honeycomb, Polystyrene, Steel-Stiffened and Urethane Core products and validation of conformity with LEED® v4.

Dear Mr. Bouchard,

Vertima hereby confirms the current mandate with De La Fontaine Industries for the production of an Environmental Product Declaration (EPD), Health Product Declaration (HPD) and Environmental Data Sheets (EDS) for the following products: Steel Frame; Steel Door with Honeycomb, Polystyrene, Steel-Stiffened and Urethane Core

The Environmental Product Declaration (EPD) will consider the products mentioned above, manufactured at the plants in Sherbrooke (QC), Boston (MA), Washington (DC) and Dallas (TX). We anticipate a four-month turnaround time to issue the Health Product Declaration (HPD) and Environmental Data Sheets (EDS), and five to eight months for the publication of the Environmental Product Declaration (EPD).

Working in close collaboration with the De La Fontaine team, Vertima is committed to completing this mandate as rapidly as possible.

During the development period, we will be able to provide you with an update on our progress and the schedule at any time so that you may send this information to your clients if necessary within the framework of a specific project.

Sincerely,

Josée Lupien

Josée Lupien, LEED Fellow
